LAST NIGHT'S STORM.

Another Big Rain and Considerable Damage by Wind and Water—Very Heavy Back of Aberdeen.

This section was visited by another severe storm last night, or rather early this morning as it was at its worst between 1 and 1:30 o'clock.

The temperature was up to 93° Thursday, and the night was very warm and sultry.

There was a light shower shortly before 1 o'clock, and shortly after that hour the storm broke in all its fury. It came from the north, and was accompanied by heavy thunder and a vivid electrical display, there being almost a continual flash of lightning. The downpour was very heavy. When there is a severe wind, as was the case this morning, it is difficult, in fact almost impossible, to secure the accurate measurement of the precipitation, because much of the rain is blown off after it strikes the gauge.

The local observer reports the total rainfall for the twenty-four hours ending at 6:30 this morning amounted to just two and one half inches. Limestone creek, however, was several feet higher than it was last week when the rainfall reached close to three inches. It would be safe therefore to place this morning's precipitation at over three inches.

The storm was very heavy back of Aberdeen. The mail carrier from there this morning reports that three houses were washed away at Bradyville and one at California on Three Mile creek. The

occupants escaped in their night clothes, losing their furniture and household goods. The corn and tobacco in the bottoms along Three Mile and Lickskillett creeks were greatly damaged, if not entirely destroyed.

On this side of the river, one bridge is reported washed away on the Mt. Carmel pike, and at places on the Burtonville pike rocks and logs washed out on the road rendering it almost impassable for large vehicles.

Along streams, considerable damage was done to fencing, watergaps and crops.

The wind also damaged corn considerably. The south abutment of the bridge on the Dover pike at Moransburg was washed out.

In the Washington neighborhood, all crops in the low lands were badly damaged.

Mr. Thomas J. Farley is on the sick list.

Superior and Kentucky DISC DRILLS

Are King and Queen of all Drills. Their superiority over all competitors are too well known to need comment; suffice it to say that we placed over sixty of these Drills the past season and have yet the first complaint from a single purchaser. On the other hand every one who used them stand ready and willing to give their testimonial as to the superior work done by them, and their unanimous verdict is if you expect to purchase a Drill this season, get either the

SUPERIOR OR KENTUCKY

and no other. Do not delay placing your orders and there will be no disappointments, as is the case each season when we are forced to resort to the river and express, which makes an additional expense. Every Drill is warranted to be just as represented. Do not allow yourself to be talked into buying some inferior Drill for the sake of saving a few dollars. Remember the cheapest is not the best, but the best is always the cheapest. Respectfully,
